

PRATAP GURAV

New York (Open to relocation) | pbg8757@nyu.edu | +1 (929) 757-0479 | [LinkedIn](#)

Project management professional with 2+ years of experience leading end-to-end product development and project delivery, cost optimization, and stakeholder-driven initiatives. Delivered \$1.5M+ in annual business, sped up time-to-market by 40%, and drove measurable business through data-driven decisions and cross-functional leadership. Passionate about building scalable AI-digital products, with a strong focus on CX.

EDUCATION

New York University (#25 globally in the *CWUR* 2025) (Aug 2025 - May 2027)

Master's in Management of Technology (MOT)

Coursework: Global Innovation, Data Viz for Business Managers, Organizational Behavior, Design Strategies, Marketing, Finance/Economics.

Institute of Chemical Technology, Mumbai (#9 State University Rank) (Jul 2018 - Jun 2023)

Integrated Master's in Chemical Engineering GPA: 3.4/4.0

Coursework: Project Management & Economics, Process Development & Simulation, Industrial Engineering, IPR & Laws, Energy Engg.

WORK EXPERIENCE

Henkel | Pune, India

Product Development Technician (Jan 2024 - Jul 2025)

- Delivered end-to-end product development across adhesives and materials, **driving 10+ product modifications** and raw-material localizations that **delivered \$1.5M+ annual savings** while maintaining quality and compliance
- Managed the ASC global product and technology newsletter for **2,000+ stakeholders across 6+ countries**, supporting responsible AI through documentation of requirements, risks, compliance, and guardrails, **driving 50% higher awareness and faster pipeline momentum**.
- Partnered with cross-functional leaders to **deploy 20+ ISO 9001 compliance** frameworks, ensuring 100% first-time audit success, strengthening regulatory rigor, and streamlining go-to-market execution.
- Mentored cross-functional teams on execution and documentation best practices, **reducing onboarding ramp-up time by 40%**.
- Led cross-functional product programs, leveraging **customer experience signals and metrics** to cut time-to-market by 40%.

IVP Ltd. | Mumbai, India

Assistant Manager - Research & Development Dept (Sep 2023 - Dec 2023)

- Led end-to-end delivery of the Foundry Adhesives initiative, completing **development 40% ahead of schedule**, optimizing formulation for **60% faster curing**, and expediting market readiness through rapid upskilling in new technologies.
- Streamlined R&D documentation and compliance processes by **leading collaboration on ISO 9001, 14001, and 45001 audits**, achieving 100% audit readiness, strengthening regulatory adherence, and obtaining go-to-market approvals.
- Drove cost reduction initiatives in formulations, **achieving \$200K+ savings** without compromising product performance or compliance.
- Presented key R&D outcomes to senior leadership and stakeholders, **securing approvals for scaling high-potential projects**.
- Directed targeted learning sessions, upskilled teams on emerging technologies, and drove organizational knowledge growth.

INTERNSHIP & PROJECT EXPERIENCE

Technip Energies | Mumbai, India

(July 2022 - Oct 2022)

Process Engineering Intern

- Spearheaded end-to-end heat exchanger optimization and hydrocarbon vessel design, **achieving 97% capacity match, 90% operational accuracy**, and significantly enhancing safety compliance while aligning cross-functional teams.
- Drove process documentation (PFDs, P&IDs), improving stakeholder alignment, reducing rework, and improving project execution.

Adherence Techno (Start-up) | Mumbai, India

(Sept 2019 - Dec 2019)

Research & Development Intern

- Orchestrated **200+ semi-batch experiments**, **boosting latex quality 35% and adhesive strength 20%**, and shortening curing cycles.
- Architected pilot-to-production scale-up and aligned cross-functional teams, enabling seamless technology transfer and scalable processes.

Process Modelling of Polyurethane Production from Mahua Oil (Final Year Project) | Mumbai, India

(Oct 2022 - May 2023)

- Led a bio-based polyurethane production study using ASPEN PLUS, **achieving a 91% reduction in utility costs on a \$12M investment**.
- Developed Mahua oil as a sustainable raw material, optimizing production processes through cross-functional collaboration.

SKILLS

Skills: Product Management, Agile, Jira, Stakeholder Management, A/B Testing, Product Lifecycle, Customer Obsession, Market Analysis, AI Prompt Engineering, Data Visualization, Data-Driven Decision Making, Digital Products, Storytelling, Matlab, Python, Power BI, Think-Cell, Customer Experience Analysis, Product Metrics & KPIs, Usability Testing, Qualitative Research, Voice of Customer (VoC), AI Governance, Risk & Compliance, Digital Platforms.
